

**STSMs Rules of Cost Action 15119 (NANOUPTAKE) for the 2<sup>nd</sup> Grant Period  
(May 2017 – April 2018)**

**Objectives:**

As defined in COST glossary (see <http://www.cost.eu/service/glossary>), Short Term Scientific Missions (STSM) aim at strengthening the COST Action and the achievement of their scientific objectives by allowing scientists participating in the Action to go to an institution or laboratory in another COST country to foster collaboration, to share knowledge, to learn a new technique or to take measurements using instruments and/or methods not available in their own institution/laboratory.

**STSM Funding Period**

The following table gives the deadline of submission, starting and ending dates of STSMs for the second Grant Period (from 01/05/2017 to 30/04/2018).

The total budget attributed for STSMs during the second year of the Action is 20.000 € (with 20 STSMs expected). This budget is distributed in two calls and the budget allocated for the 1<sup>st</sup> call cannot exceed the 60% of the total budget. Thus, a minimum of 40% of the total budget will remain for the 2<sup>nd</sup> call.

MILESTONES	DATES	
	1 <sup>st</sup> Call	2 <sup>nd</sup> Call
Submission deadline	05/06/2017	31/10/2017
Notification of award	20/07/2017	20/11/2017
STMS starting	20/07/2017	01/12/2017
STMS ending	31/03/2018	31/03/2018

**Applicants and eligibility criteria**

Based on COST eligibility criteria (see <http://www.cost.eu/download/COSTVademecum>), the Applicant should be engaged in a program of research as a PhD student or postdoctoral fellow or be employed in a public or private institution of a COST country having signed the MoU of

the Action. The information about the participations is available at [http://www.cost.eu/COST\\_Actions/ca/CA15119](http://www.cost.eu/COST_Actions/ca/CA15119).

Both Home (sending) and Host (receiving) Institutions can be public or private, and should be in a COST country having signed the MoU. In addition, they should be actively participating in the COST Action and its representatives have to be a member to at least one Working Group.

In exceptional cases a STSM may be approved from a Home institution in a COST country to a Host Institution in a non-COST country but not the other way round. All the possible scenarios are described in Cost Vademecum, section 7 - STSM.

### **Duration and financial support**

In general, STSMs have a minimum duration of one week (5 working days), maximum 3 months in accordance to COST Vademecum, and they shall be developed within the time frame of the year schedule and within the period of the respective COST Action. STSMs of Early Career Investigators –ECI- (less than PhD + 8 years) can be extended to a duration beyond 3 months, but normally not more than 6 months in total. In these cases, financial support can be increased to a maximum EUR 3 500.

The amount of funding requested is in accordance to COST-Vademecum. The financial support is a contribution to the costs of a STSM and may not necessarily cover all the costs in each case. Except for ECIs, a maximum duration of 1 month for STSMs was decided by the Management Committee for the 2nd Grant Period. Proposed and supported STSM must end according to time schedule described in section “Funding period”.

The financial contribution for a STSM will be a fixed grant based on the Applicant budget request and the evaluation of the application by the STSM Assessment Committee. An amount of EUR 60 to 90 for the daily allowance in particular for longer stays and maximum EUR 400 for the travel is recommended. An average cost on EUR 720 per STSM for the 2nd Grant Period is expected. The total of a STSM shall normally not exceed EUR 2 500 (EUR 3 500 for Early Career Investigators). Rates for accommodations and meal expenses could be differentiated following cost of living in Host country. Any exception needs special justification. In any case the costs associated with the STSM must not exceed the limits set in the Cost Vademecum.

COST is supported by  
the EU Framework  
Programme Horizon 2020

## **Proposals submission**

The applicants must use the online portal <https://e-services.cost.eu/stsm> to register the proposal. A formal summary is produced online, downloaded and sent by email to the STSM coordinator ([patrice.estelle@univ-rennes1.fr](mailto:patrice.estelle@univ-rennes1.fr)). During the submission, the following information is required:

- Applicant's title, name, work place, postal address, telephone and fax numbers, and email address.
- Name, postal address, telephone, fax and email of the prospective host at the receiving institute.
- The planned dates and length of stay.
- The title of the planned STSM.
- A short description of the proposed work plan (about 250 words).
- A short curriculum vitae.
- A budget request with breakdown for the costs of the STSM.
- Bank account details.

In addition to the previous information, additional evidence is needed to support the proposal and help in decision round for STSM funding. The applicant must fill and submit:

- 1) Proposal of the research during the expected STSM (3-5 pages), with the following structure:
  - Abstract (1/3 page)
  - Broader background and research questions of current project (1/2 page)
  - Specific goals of STMS, methods used, time-line (1 page)
  - Relevance to the Action and WGs (1/3 page)
  - Dissemination plans (1/2 page)
- 2) CV of applicant (max. 1 page).
- 3) Letter of support from Home and Host institutions.
- 4) A signed statement including the following aspects:
  - She/he must agree to present results in a WG meeting (when possible) and a written report.
  - She/he must agree to acknowledge funding in publications and conferences arising from STSM Cost Action.

Once the starting date of an accepted STSM mission is known (e.g. travel booking), the STSM coordinator must be notified by email. The scholarship cannot be considered as employment and the grantee must make his/her own arrangements for all health, social, personal security and pension matters.

Only complete proposals received before the deadline and verifying eligibility of application will be considered in the respective decision round.

### **Assessment Panel**

For each STSM Call, the Assessment panel consists of the chair, or vice-chair, the STSM Coordinator and the Work Group (WG) leaders or WG Vice-Leaders. All the Assessment Panel members has to find a substitute in case of conflict of interest (i.e. she/he is part of the home/guest institution of the applicant), or time constraints that will not allow for participation in the assessment.

The proposals collected by the STSM coordinator will be send out to the chair or vice-chair, WG leaders or vice-leaders immediately after the deadline, together with an up-to-date summary of “the statistics”, i.e. the budget available, and a list of the STSM funded in the Action.

Each member of the assessment panel prepares a list according to the following aspects within three weeks:

- a) Applications to be funded (“priority list”),
- b) Applications not fundable (for reasons other than “no funds available”). When an application is categorized as “not fundable for other reasons”, a reason must be indicated.

## **Decision criteria and procedures**

The decision sheet reported in annex 1 will be used for the scientific assessment of the proposal. The criteria for decision will be available to the applicants on the web-page ([www.nanouptake.eu](http://www.nanouptake.eu)) and will be based on the following criteria:

- The candidate's personal and scientific development (max. 5 score points).
- The overall project (max. 5 score points).
- The goals of STSM (max. 5 score points).
- Relevance of STSM to the Action (max. 5 score points).
- Dissemination plans (max. 5 score points).

The STSM manager summarizes the 6 votes (chair/co-chair; STSMs Coordinator and WG Leaders). This means that an excellent application will have:

$$5 \text{ criteria aspects} \times 5 \text{ score points} \times 6 \text{ votes} = 150 \text{ score points.}$$

Proposals below 80 score points cannot be funded without resubmission in the next call for proposals. The STSM Coordinator will notify the applicant this decision.

If there are more fundable proposals than available funding, the STSM Coordinator will prepare a priority list assuring the balance between WGs, and taken into account the priority given by MC: gender balance, and promotion of proposals from ECI and ITC.

Applications that exceeds current funds, are moved to a waiting list. In addition, they will be considered for the next funding period (treated as new applications with the same score, unless the proposal is resubmitted). In case that a Working Group has received more funding (nominal value) than others, it will be considered for the next calls.

The preliminary decision will be sent by the STSM to the Chair/Vice-Chair for final acceptance. Then, the STSM coordinator will inform the Grant Holder Manager. All applicants will be notified between 6 to 8 weeks after the deadline of proposal submission (Grant letter) by the Grant Holder Manager. The Grantee accepts the grant by sending back a signed version of the grant letter to the Grant Holder Manager.

Once the STSMs have been finished (4 weeks latest), the grantees must submit an online short scientific report (accessible from [www.nanouptake.eu](http://www.nanouptake.eu)) to the host institution and the STSM coordinator, containing the following information:

- Purpose of the STSM.
- Description of the work carried out during the STSM.
- Description of the main results obtained.
- Future collaboration with host institution (if applicable); foreseen publications/articles resulting or to result from the STSM (if applicable).
- Confirmation by the host institution of the successful execution of the STSM.
- Other comments (if any).

The STSM Coordinator, the Vice Chair and a representative of the Host Institution will approve the scientific report and will inform the Grant Holder that the STSM has been successfully accomplished and the grant can be paid. The Grant Holder executes the payment to the grantee.

### **Further information about applications**

Questions may be sent to the STSM coordinator (Prof. Patrice Estelle):
